

## **STUDENT WELLNESS PROGRAM**

The Board believes that healthy students are more likely to successfully complete their formal education. The Board recognizes that it plays an important role in the development of students' health and nutrition habits by providing nutritious meals and snacks, supporting the development of good eating habits, and promoting increased physical activity.

The Board sets forth the following goals in an effort to enable students to establish good health and nutrition habits:

### **Nutrition Promotion and Education Goals**

- The district shall provide for interdisciplinary, sequential skill-based health education that supports hands-on classroom activities that promote health and reduce obesity.
- Nutrition and healthy living skills shall be integrated into classroom curriculum when appropriate.
- Students in grades pre-k through 12 shall receive nutrition education that is interactive and teaches the skills they need to adopt healthy eating behaviors.
- Nutrition education shall be offered and promoted in the school cafeteria as well as in the classroom with coordination between the food service staff and teachers.
- Nutrition education and promotion information will be shared with parents and the community.

### **Physical Education and Activity Goals**

- Students shall be provided opportunities for physical activity during the school day through physical education classes, daily recess periods for elementary students, and the integration of physical activity in the classroom.
- Physical education classes shall stress physical fitness, encourage healthy, active lifestyles and consist of physical activities as part of the curriculum.
- Physical activity will not be used as a form of discipline or punishment.
- Physical activity and promotion information will be shared with parents and the community.
- The District shall encourage parents and the community to support physical activity, to be physically active role models, and to include physical activity at events.

### **Other School-Based Activities**

- School-based activities shall promote student wellness and, if appropriate, shall encourage nutrition and physical education.
- Nutrition shall be considered when planning school-based activities, such as classroom snacks,

fundraisers, etc.

- The district will provide students with a clean and safe environment and adequate time for eating meals.

### **Nutrition Guidelines**

- In accordance with the district's Food Sale Standards policy, the food service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages.
- The food service program will provide all students affordable access to a variety of nutritious foods.

### **Implementation and Evaluation**

- The Superintendent shall ensure that the school implements, complies with and evaluates this policy.
- The district will create a wellness committee which may include administrators, board members, teachers, parents, students, school health professionals, or community members. The committee will participate in the review of this policy and will make recommendations for changes.
